# DEPARTAMENTO DE FISICA 

Recinto Universitario de Mayagüez
Universidad de Puerto Rico
Syllabus for the Course:
FISI-3171
Second Sem. 2016-17

## Text: Physics for Scientists \& Engineers <br> Douglas C. Giancoli / Fourth Edition

1-There will be 4 partial exams and 1 final exam.
2-Profesor will explain the way to compute the final grade of the course.
3-Assistance to classes is obliged. Assistance will affect the final grade.
4-Last day for partial withdraw is Thursday the 22th of April.
5-Pre-requisit for the course: MATE-3031.

## NOTE TO STUDENTS:

In the syllabus there are 60 lessons for the whole semester. Titles of the chapter are undermarked. Some sections of each chapter are shown too. All the sections that student must study are given for every lesson (independently that the professor could discuss them all at class).

Questions (Q) and problems (P) of Giancoli's book are given and they must be done by students as part of their individual preparation. They represent a convenient training for students in order to get C in the course. Those who wish to get an A as final result probably will require to solve more problems (from section of "General Problems" at the end of each chapter).

Chapters for each Partial Exam are written in the Syllabus, as well as the date for each exam. These dates are chosen under interdepartmental agreement in order to avoid overlapping of exams and classrooms for different disciplines. These dates cannot be moved to avoid conflicts.

In the next table, weeks are differentiated at the first column, one week in white fond and the next one in gray. Rows with XXXX represent weeks with Partial Exams (four in the whole semester).

## FINAL EXAM.

Martes, 17 ene-Comienzan las clases
Lunes, 20 febrero-Feriado-Día de los Presidentes y de los Próceres Puertorriqueños
Martes, 21 febrero- clases de lunes
Miércoles, 22 marzo-Feriado-Día de la Abolición de la Esclavitud
Lunes, 10 al sábado, 15 abril-Receso Académico de Semana Santa
Miércoles, 19 abril-Ultimo día para bajas parciales
Jueves, 20 abril-clases de viernes
Viernes, 21 al sábado, 22 abril-Receso Acad.-Justas Interuniversitarias (Tentativo)
Jueves, 4 mayo-Ultimo día exámenes parciales
Jueves, 11 mayo-Ultimo día de clases
Viernes, 12 mayo-Periodo de Repaso
Sábado, 13 al Sábado, 20 mayo-Exámenes finales
Lunes, 22 mayo-Entrega de notas hasta la 1:00 p.m.
