¿Qué le parece mi Blinklist?

- <http://www.blinklist.com/nunez>

Definición de social bookmarking:

- Actividad en línea que le permite a los usuarios archivar y categorizar enlaces favoritos que pueden compartirse con otros. Los usuarios pueden añadir los favoritos de otros a su colección y suscribirse a las listas de otras personas. Los contenidos de los archivos de enlaces se organizan por los mediante lo que se conoce como “tags”(etiquetas).

¿Qué podemos hacer con SB

- Tener un archivo en línea de nuestros enlaces favoritos
- Compartir nuestros enlaces con aquellos interesados y beneficiarnos de lo que enlazan otras personas
- Clasificar nuestros enlaces utilizando “tags”
- Sindicar enlaces vía RSS: Las personas pueden suscribirse y saber cuáles son los enlaces que vas añadiendo
- Obtener una “nube” de tags que permite saber fácilmente cuáles son las categorías más populares

¿Qué podemos hacer con el SB?

- Buscar tópicos de interés utilizando los tags que otras personas le han asignado a sus favoritos.

Folcsonomía:

<http://es.wikipedia.org/wiki/Folcsonom%C3%ADa>

- De acuerdo con su formación etimológica, folcsonomía (folc+taxo+nomía) significa literalmente "clasificación gestionada por el pueblo (o democrática)".
- “Categorización colaborativa por medio de etiquetas simples en un espacio de nombres llano, sin jerarquías ni relaciones de parentesco predeterminadas.”
- “Las folcsonomías surgen cuando varios usuarios colaboran en la descripción de un mismo material informativo. “

Folcsonomía

- “Cuando conferimos a las categorías un rol social, siendo creadas y compartidas por toda la comunidad en un proceso colaborativo”
- “Cuando clasificamos utilizando tags, estamos incluyendo la información, no en una categoría que nos pertenece sólo a nosotros sino en una que es común a todos los usuarios del sistema.”
 - <http://www.librodenotas.com/desdemibolsillo/7396/folcsono-qu>

De la wikipedia: Definición de tags

- Un tag es una palabra clave que tiene una función similar a las categorías. Sirve para organizar los objetos o contenidos de Internet.
- A los contenidos u objetos se les pueden asignar múltiples tags. Los usuarios pueden usar los tags para buscar páginas similares.

Importancia de los tags:

- ***"Tags are a means not only to remember links, but also to discover content tagged by others, to target searches and advertising, to connect people of common interests, and even to collect the wisdom of the crowds."*** (Jeff Jarvis / *Tagging - the Latest Way to Search the Web* / *The Guardian*: January 02, 2006)

Herramientas de SB

- **Del.icio.us:** <http://del.icio.us> (Fue la primera y es la que mas popularidad tiene.)
- **BlinkList-** <http://www.blinklist.com> (Es mi preferida
- **Furl:** <http://www.furl.net>

All about CiteULike

Read all about it

CiteULike is a free service to help academics to share, store, and organise the academic papers they are reading. When you see a paper on the web that interests you, you can click one button and have it added to your personal library. CiteULike automatically extracts the citation details, so there's no need to type them in yourself. It all works from within your web browser. There's no need to install any special software.

Because your library is stored on the server, you can access it from any computer. You can share your library with others, and find out who is reading the same papers as you. In turn, this can help you discover literature which is relevant to your field but you may not have known about.

You're currently looking at a list of the last few papers submitted by all the CiteULike users. Why not [register](#) for a free account today and start organising your collection and see just the articles you're interested in? All we need is your email address, a username, and a password. It should take less than fifteen seconds.

Alternatively, you can read [more about CiteULike](#).

Hot papers

Which academic papers are bloggers discussing?

Welcome!

Postgenomic collates posts from life science blogs and then does useful and interesting things with that data.

For example, it allows you to get an instant picture of [which web sites are being heavily linked to](#) by researchers in the medical sciences, or which papers are [being cited](#) or [reviewed](#) most often by bioinformaticians, or which [buzzwords](#) are being used the most frequently by evolutionary biologists.

It's sort of like a hot papers meeting with the entire biomed blogging community.

Sort of.

Postgenomic is a community driven, open source project. Your help would be much appreciated. More detailed information is available in the [get involved](#) section.

Impact tracker (top 20)

[\(see more of the zeitgeist\)](#)

Which journals are bloggers linking to most frequently?

13.5%	Nature
12.4%	Science
9.4%	Proc Natl Acad Sci U S A
5.2%	Nat Neurosci

TISCAR ::::: Research on blogs » La revista Nature arriesga su credibilidad

<http://www.tiscar.com/?p=412>

Hace unos meses se desató una polémica por el artículo de la revista científica Nature donde apenas se detectaban grandes diferencias en la precisión de información ofrecida por la Wikipedia con respecto a la Enciclopedia Británica.

Palabre: Flash Xml Multiuser Socket Server

<http://palabre.gavroche.net/>

An open source (and free as in free beer) XML Socket Python Server. It is meant to be used in replacement (for example) of the Macromedia Flash Communication Server. (which is let's admit it really expensive)

Añadiendo los enlaces mediante Firefox

- Un bookmarklet es un tipo de enlace especial que, tras ser agregado a tus marcadores (o favoritos), añade una función extra al navegador
- Hay dos formas de añadir enlaces a blinklist:
 - Mediante un bookmarklet
 - Mediante una extensión

Firefox

- Mediante un bookmarklet
 - Vaya a esta página:
<http://www.blinklist.com/profile/bookmarklet.php>
 - Arrastre el enlace al toolbar y ya lo puede usar.

BlinkList for Firefox / Mozilla

REGULAR button

Description: The regular "blink this site" button allows you to quickly blink sites to your BlinkList account

QUICK BLINK button

Description: Quick Blinking sites will add sites to your BlinkList account under the tag "Quick Blinks" with one click.

POP-UP button

Description: The Pop-up "blink this site" button allows you to blink a site from another window so that you can still see the site that you are blinking.

Añadir enlaces a Blinklist mediante la extensión para Firefox

- Instalar la siguiente extensión

<https://addons.mozilla.org/extensions/moreinfo.php?id=1437>

Añadiendo el bookmarklet en Internet Explorer

BlinkList for Internet Explorer

REGULAR button

Description: The regular "blink this site" bookmarklet allows you to quickly blink sites to your BlinkList account

QUICK BLINK button

Description: Quick Blinking sites will add sites to your BlinkList account under the tag "Quick Blinks" with one click.

To add BlinkList to your browser :

1. **Right click** on one of the "Blink This Site" buttons above,
2. Select **"Add to Favorites..."** from the selection menu,
3. Explorer will open a security alert because the "blink this site" button uses javascript. Click **OK** to continue,
4. **Save** the "blink this site" button under your favorites in your browse,
5. **Drag** the "Blink this site" button to the top of your favorites to make it faster to blink new sites.

BlinkList button for your Google Toolbar:

Add to Toolbar

Learn how to add "BlinkList" to your browser

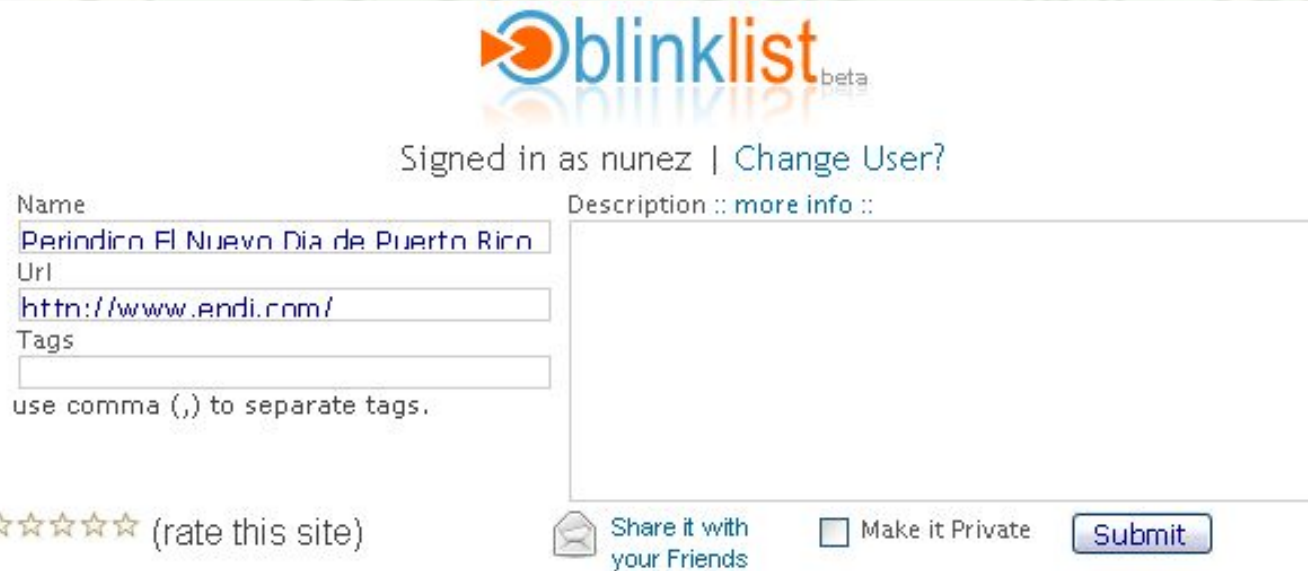

El truco para añadir bookmarklets en IE

- Haga un “right click” en el bookmarklet llamado “regular button”.
- Seleccione “add to favorites”.
- A la alerta de seguridad, seleccione “OK”.
- Guarde el enlace en la carpeta llamada “Links” de tus favoritos. Debido a que Microsoft incluye varios enlaces hay que configurarlo para que el bookmarklet de Blink quede al principio.

Añadir enlaces en Blinklist

- Cada vez que encuentres una página interesante, puedes hacer click sobre el bookmarklet de Blinklist y aparecerá esta página:

The screenshot shows the Blinklist beta interface. At the top, the logo "blinklist beta" is displayed. Below it, the user is signed in as "nunez" with a "Change User?" link. The form contains the following fields:

- Name:** Perindirn El Nuevo Dia de Puerto Rico
- Url:** http://www.endi.com/
- Tags:** (empty field)
- Description :: more info :::** (empty text area)

Below the form, there is a star rating system (☆☆☆☆☆) with the text "(rate this site)". To the right, there are three options: "Share it with your Friends" (with an envelope icon), "Make it Private" (with an unchecked checkbox), and a "Submit" button.

Proceso de añadir enlaces.

- En la misma debe añadir los tags que desea utilizar para clasificar este contenido. Tiene la opción de incluir una descripción del enlace.

Aplicaciones para la enseñanza/investigación

- Recurso para que los estudiantes y profesores puedan ir desarrollando una lista de enlaces favoritos por clases.
- Recurso para compartir enlaces en una clase.
- Herramienta para que un grupo de estudiantes incluya enlaces relacionados a su proyecto de investigación.
- Herramienta de mejoramiento continuo
