

GRADUATE STUDENT Expectations

UPRM

Realistic

- Be aware of the rules, regulations, and policies related to your program of study, academic integrity, research integrity, safety, and academic conduct.
- Take primary responsibility for program milestones and degree completion.
- Effectively communicate academic deadlines and circumstances that may affect your academic progress.
- Submit research papers and grant applications well in advance of deadlines, to receive review and feedback.
- Meet with your supervisor and supervisory committee on a regular basis.
- Maintain a professional relationship with your supervisor. Make an effort to resolve any conflicts promptly and seek outside help when necessary.
- Be proactive and dedicate the time, effort, and energy necessary to advance in your academic program.
- Seek professional development opportunities and apply for scholarships/awards.

Unrealistic

- Writing important papers or conducting research without receiving feedback and guidance.
- Know all the answers.
