POOL OF CANDIDATES
POTENTIAL HIRES FOR TEMPORARY OR
TENURE TRACK POSITION

POSITION: Assistant Professor in Agricultural Engineering. The position will be a full-time, 9-month, Tenure-track appointment as an Assistant Professor of Agricultural Engineering. The official appointment is 75% outreach through the Agricultural Extension Service and 25% research.

SPECIALTY: Alternative Energy Sources

MINIMUM REQUIREMENTS: The candidate must have a doctoral degree (Ph.D.), have a bachelor's degree (BS) in electrical engineering, and be licensed (PE) to practice the engineering profession in Puerto Rico by the date of hiring. Education and experience in the design and installation of photovoltaic solar systems and other alternative energy sources is strongly desirable. Candidates with an engineer in training certificate (EIT) can be considered, but will be required to obtain a professional engineer's license to practice in Puerto Rico.

TASKS: The selected candidate will be expected to develop a research and outreach program on alternative energy sources, with a primary focus on photovoltaic solar energy systems. In addition, must develop new courses in the area of renewable energy and participate in public policy on alternative energy sources. Applicants must have teamwork skills and have excellent verbal and written communication skills in Spanish and English. Must be available to teach undergraduate and graduate courses in the area of alternative energy sources as requested.
