

Evidence 2023.4.3.1: Focal Group Teachers Attendance

Evidence Overview

The purpose of the photos and attendance sheet is to provide concrete evidence for the assessment of completers' satisfaction within the University of Puerto Rico at Mayagüez's Educator Preparation Provider (UPRM EPP). This evidence is essential for ongoing improvements in educational excellence, as feedback from UPRM EPP completers offers valuable insights into their academic journey and informs the enhancement of pedagogical areas. The data collected, including attendance records and photos, supports a mixed-method approach that triangulates information to understand the relationship between educational inputs and professional outcomes. By combining qualitative feedback from focus groups with quantitative data, the UPRM EPP can evaluate the effectiveness of its program, ensuring alignment with educational standards and the preparation of educators equipped for contemporary pedagogy and future generational education.

The Evidence

The evidence in this section pertains to the assessment of completers' satisfaction within the University of Puerto Rico at Mayagüez's Educator Preparation Provider (UPRM EPP) and how it informs the ongoing enhancement of educational excellence. It involves a mixed-method approach, including feedback from a focus group of 14 completers, aimed at evaluating the program's effectiveness in meeting educational benchmarks and aligning with relevant professional standards.
