

Geographic Mapping Technologies, Corp.

Notice of Updates to Education Program Agreement

Dear Education Program Customer:

Over the years, Esri has evolved ArcGIS from a single product to a platform of tightly integrated apps. Educational practices have also evolved; learning is not limited to a classroom or lab. Esri has modernized its education program offerings ("Education Program Offerings") in response to these changes in technology and educational practices. Esri's goal is to increase the use of its offerings by allowing students and educators to access Education Program Offerings on any device, wherever they choose to work.

The purpose of this notice is to inform your institution ("Your Institution") of the current matrix of Education Program Offerings that apply to Your Institution's education program agreement ("Your Institution's Agreement"). This notice is provided to Your Institution in accordance with the Changes by Supplement or equivalent clause in Your Institution's Agreement that permits Esri and Distributor to update the list of Education Program Offerings found in Appendix A of Your Institution's Agreement, as well as the scope of use for such Education Program Offerings upon written notice to the primary contact identified in Your Institution's Agreement.

In some circumstances, Distributor may also ask Your Institution to execute an updated education program agreement.

1. Education Program Offerings for Academic Use. Table A-1 and Table A-2 attached to this notice list the Education Program Offerings and license quantities that Your Institution may use for academic purposes. There is no cap on the number of Education Program Offerings that Your Institution is eligible to use for academic purposes.

2. Education Program Offerings for Administrative Use. Table A-3 and Table A-4 attached to this notice list the Education Program Offerings and license quantities that Your Institution may use for administrative purposes. Additional licenses are available for an additional fee. Please contact your Distributor representative for details.

3. Additional Benefits. Table A-5 attached to this notice lists the additional benefits that are available to Your Institution. Specific benefits, such as additional Authorized Technical Support contacts and Esri User Conference and Education Summit @ Esri UC registrations, are available for an additional fee. Please contact your Distributor representative for details.

4. Scope of Use. If Your Institution is an institution of higher education, Your Institution may permit its students, educators, and staff members to use the Education Program Offerings on a personally owned device or through a virtualized/hosted environment in any geographic location where it is not prohibited by the then current applicable US government export laws and regulations (currently the following: Iran, Sudan, North Korea, Syria, Cuba, and the Crimea region in the Ukraine) in accordance with the terms and conditions of Your Institution's Agreement. Your Institution may not use or permit its students, educators, or staff members to use the Education Program Offerings in violation of the Export Compliance provision of the license agreement that is part of Your Institution's Agreement, which includes authorizing use, access, or transfer to denied

parties, entities, and individuals on any US government-sanctioned lists. Your Institution must inform its students, educators, and staff members that their use of the Education Program Offerings is subject to the use restrictions in the Agreement and the terms and conditions of the license agreement that is part of Your Institution's Agreement, including, but not limited to, all applicable US government export laws and regulations. Your Institution shall implement reasonable processes to ensure that students, educators, and staff members remove the Education Program Offerings from their personal computers upon leaving Your Institution.

APPENDIX A

EDUCATION PRODUCTS AND DEPLOYMENT SCHEDULE

Institution may copy and Deploy the Education Products listed in Table A-1 up to the license quantities specified in Table A-2 for Academic Use.

Category: Large

Table A-1

Academic Use
