

PUBLICATIONS IN MATHEMATICS EDUCATION

Name: RAFAEL MARTÍNEZ PLANELL

Email: rmplanell@gmail.com

1. Trigueros, M. & Martínez-Planell, R. (2007). [Visualization and abstraction: Geometric representation of functions of two variables](#). In T. Lamberg & L.R. Wiest (Eds.), *Proceedings of the 29th Annual Conference of the North American Chapter of the International Group for the Psychology of Mathematics Education* (p. 100-107).
2. Martínez-Planell, R. & Trigueros Gaisman, M. (2009). [Students' ideas on functions of two variables: Domain, range, and representations](#). In Swars, S. L., Stinson, D. W., & Lemons-Smith, S. (Eds.). *Proceedings of the 31st annual meeting of the North American Chapter of the International Group for the Psychology of Mathematics Education* (Vol. 5, pp. 73-80). Atlanta, GA: Georgia State University.
3. Trigueros, M. and Martínez-Planell, R. (2010). [Geometrical representations in the learning of two variable functions](#). *Educational Studies in Mathematics*, 73(1), 3-19.
<https://doi.org/10.1007/s10649-009-9201-5>
4. Martínez-Planell, R., Gonzalez, A., Di Cristina, G., & Acevedo, V. (2011). [Construcciones SERLIST y SERFUNC de series infinitas](#). *Educación Matemática*, 23 (1), 189-213.
5. Trigueros, M. and Martínez-Planell, R. (2011). ["How are graphs of two variable functions taught?"](#) *Paper presented at the Annual Meeting of the North American Chapter of the International Group for the Psychology of Mathematics Education, University of Nevada, Reno, Reno, NV.*
6. Martínez-Planell, R., Gonzalez, A., Di Cristina, G., Acevedo, V. (2012), [Students' conception of an infinite series](#). *Educational Studies in Mathematics*, 81 (2), 235-249.
7. Martínez-Planell, R. & Trigueros Gaisman, M. (2012). [Students' understanding of the general notion of a function of two variables](#). *Educational Studies in Mathematics*, 81 (3), 365-384.
<https://doi.org/10.1007/s10649-012-9408-8>
8. Martínez-Planell, R. & Trigueros, M. (2012). [Activity sets to help student graphing of functions of two variables](#). In *Proceedings of the 12th International Congress of Mathematics Education*, ICME-12 (pp. 2759-2769, in Topic Study Group 13, TSG13-13). Seoul, Korea: ICME
9. Martínez-Planell, R. & Trigueros, M. (2012). [Analysis of two-variable function graphing activities](#). In Van Zoest, L.R., Lo, J.-J., & Kratky, J.L. (Eds.). *Proceedings of the 34th Annual Meeting of the North American Chapter of the International Group for the Psychology of Mathematics Education* (pp. 65-71). Kalamazoo, MI.: Western Michigan University.

10. Martínez-Planell, R. & Trigueros, M. (2013). [Graphs of functions of two variables: Results from the design of instruction](#). *International Journal of Mathematical Education in Science and Technology*, 44 (5), pp. 663-672.
11. Trigueros, M. & Martínez-Planell, R. (2013). [Las funciones de dos variables: Análisis desde el punto de vista de los resultados del diálogo entre la teoría APOS y la TAD](#). Paper presented at CITAD4, 4th International Congress of the Anthropological Theory of the Didactic, April 21-26, Toulouse, France
12. Martínez-Planell, R. & Cruz Delgado, A. (2013). [The construction of trigonometric and inverse trigonometric functions](#). In Martinez, M. & Castro Superfine, A (Eds.), *Proceedings of the 35th annual meeting of the North American Chapter of the International Group for the Psychology of Mathematics Education*, pp. 425-432. Chicago, IL: University of Illinois at Chicago.
13. Trigueros, M. & Martínez-Planell, R. (2013). [Contribution of the dialogue between two theories to the study of two variable functions](#). In Martinez, M. & Castro Superfine, A (Eds.), *Proceedings of the 35th annual meeting of the North American Chapter of the International Group for the Psychology of Mathematics Education*, pp. 529-533. Chicago, IL: University of Illinois at Chicago.
14. McGee, D. & Martínez-Planell, R. (2014). [A study of semiotic registers in the development of the definite integral of functions of two and three variables](#). *International Journal of Science and Mathematics Education*, Volume 12, [Issue 4](#), pp 883-916.
15. Martínez-Planell, R., Trigueros, M., & McGee, D. (2014). [On students' understanding of partial derivatives and tangent planes](#). Paper presented at the 36th Annual Meeting of the North American Chapter of the International Group for the Psychology of Mathematics Education, Vancouver, Canada.
16. Trigueros, M. & Martínez-Planell, R. (2015) [Las funciones de dos variables: Análisis mediante los resultados del diálogo entre la teoría APOS y la TAD](#). *Enseñanza de las Ciencias*, Vol. 33(2), pp. 157-171.
17. Martínez-Planell, R., Trigueros, M. & McGee, D. (2015). [On students' understanding of the differential calculus of functions of two variables](#). *Journal of Mathematical Behavior* (38), pp. 57-86. <https://doi.org/10.1016/j.jmathb.2015.03.003>
18. McGee, D., Moore-Russo, D., & Martínez-Planell, R. (2015). [Making Implicit Multivariable Calculus Representations Explicit: A Clinical Study](#). *PRIMUS*, Volume 25, Issue 6 pages 529-541
19. Martínez-Planell, R., Trigueros, M., & McGee, D. (2015). [Student understanding of directional derivatives of functions of two variables](#). In Bartell, T. G., Bieda, K. N., Putnam, R. T., Bradfield, K., & Dominguez, H. (Eds.), *Proceedings of the 37th annual meeting of the North American*

Chapter of the International Group for the Psychology of Mathematics Education. East Lansing, MI: Michigan State University.

20. López, J., Robles, I., & Martínez-Planell, R. (2015). [Student understanding of quadratic equations](#). *International Journal of Mathematics Education in Science and Technology*, Vol. 47(4), pp. 552-572.
21. Trigueros, M., Martínez-Planell, R., & McGee, D. (2016). [Student understanding of the relation between tangent plane and the differential](#). In E. Nardi, C. Winslow, and T. Hausberger, *Proceedings of the First Conference of the International Network of Didactic Research in Undergraduate Mathematics*, pp. 93-102. Montpellier, France: University of Montpellier.
22. Martínez-Planell, R. & Trigueros, M. (2016). [Cycles of APOS based research: The case of functions of two variables](#). In Csíkos, C., Rausch, A., & Szitányi, J. (Eds.). *Proceedings of the 40th Conference of the International Group for the Psychology of Mathematics Education*, Vol. 3, pp. 283-290. Szeged, Hungary: PME.
23. Nagle, C., Moore-Russo, D., & Martínez-Planell, R. (2016). [A framework for describing conceptions of slope](#). In M. B. Wood, E. E. Turner, M. Civil, & J. A. Eli (Eds.). *Proceedings of the 38th annual meeting of the North American Chapter of the International Group for the Psychology of Mathematics Education*, pp. 195-198. Tucson, AZ: The University of Arizona.
24. Martínez-Planell, R. & Cruz Delgado, A. (2016). [The unit circle approach to the construction of the sine and cosine functions and their inverses: An application of APOS Theory](#). *The Journal of Mathematical Behavior*, 43, pp. 111-133.
25. Martínez-Planell, R., Trigueros, M., & McGee, D. (2017). [Students' understanding of the relation between tangent plane and directional derivatives of functions of two variables](#). *The Journal of Mathematical Behavior*, Vol. 46, pp. 13-41. <https://doi.org/10.1016/j.jmathb.2017.02.001>
26. Martínez-Planell, R. & Trigueros, M. (2017). [Students' relating of integrals of functions of two variables and Riemann sums](#). In Kaur, B., Ho, W.K., Toh, T.L., & Choy, B.H. (Eds.). *Proceedings of the 41st Conference of the International Group for the Psychology of Mathematics Education*, Vol. 3, pp. 225-232. Singapore: PME.
27. Trigueros, M., Martínez-Planell, R., & McGee, D. (2018). [Student understanding of the relation between tangent plane and the total differential of two-variable functions](#). *International Journal of Research in Undergraduate Mathematics Education*, 4(1), 181-197. <https://doi.org/10.1007/s40753-017-0062-5>
28. Trigueros, M. & Martínez-Planell, R. (2018). [On students' understanding of Riemann sums of integrals of functions of two variables](#). In V. Durand-Guerrier, R. Hochmuth, S. Goodchild, & N.

- M. Hogstad (Eds.). *Proceedings of the Second Conference of the International Network for Didactic Research in University Mathematics*, pp. 64-73. Kristiansand, Norway: University of Agder.
29. Nagle, C., Martínez-Planell, R., & Moore-Russo, D. (2019). [Using APOS theory as a framework for considering slope understanding](https://doi.org/10.1016/j.jmathb.2018.12.003). *The Journal of Mathematical Behavior*, 54, June 2019, 100684. <https://doi.org/10.1016/j.jmathb.2018.12.003>
 30. Martínez-Planell, R. & Trigueros, M. (2019). [Using cycles of research in APOS: The case of functions of two variables](https://doi.org/10.1016/j.jmathb.2019.01.003). *The Journal of Mathematical Behavior*. V. 55, September 2019, 100687. <https://doi.org/10.1016/j.jmathb.2019.01.003>
