

# AFTERMATH OF HURRICANE MARIA AT IR-4 FIELD RESEARCH CENTER

**Dr. Wilfredo Robles**

Interim Associate Dean and Subdirector  
Agricultural Experiment Station, UPR Mayagüez

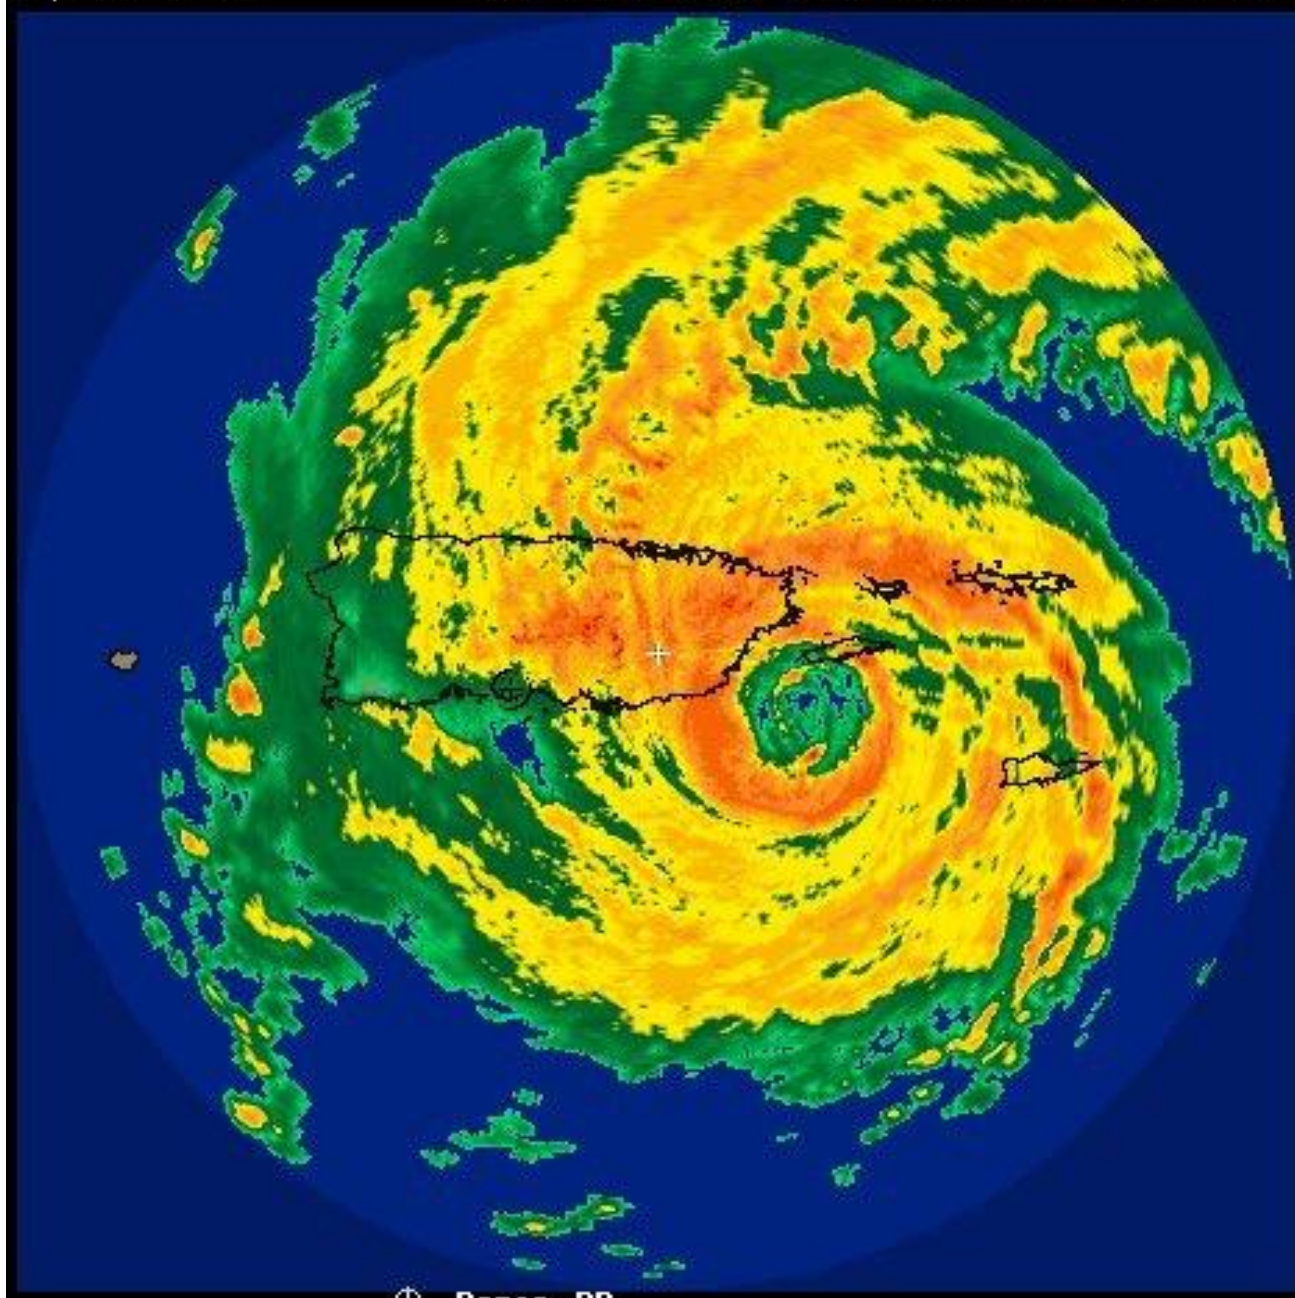

04:45 AST  
09/20/17

LIGHT MODERATE HEAVY EXTREME

The  
**IR-4**  
Project

Juana Diaz

# Corozal

# Estimated Loses

Item	Estimate (\$)
Infrastructure	2,850,000
Equipment and materials	220,500
Crops	390,925
Power and Communication	15,000
Laboratory materials	30,500
Dairy Farm – (1,417 gallons)	4,400

# Limited Resources after Severe Weather

- Potable water for human consumption
- Pumping water from wells or irrigation lakes without power from PREPA
- Lack of Electricity at the IR-4 Research Center
  - We don't have Automatic Power Generator
- Lack of Communications
  - Suggest Radio Communications; License Amateur Radio
- Fuel – Diesel and Gasoline

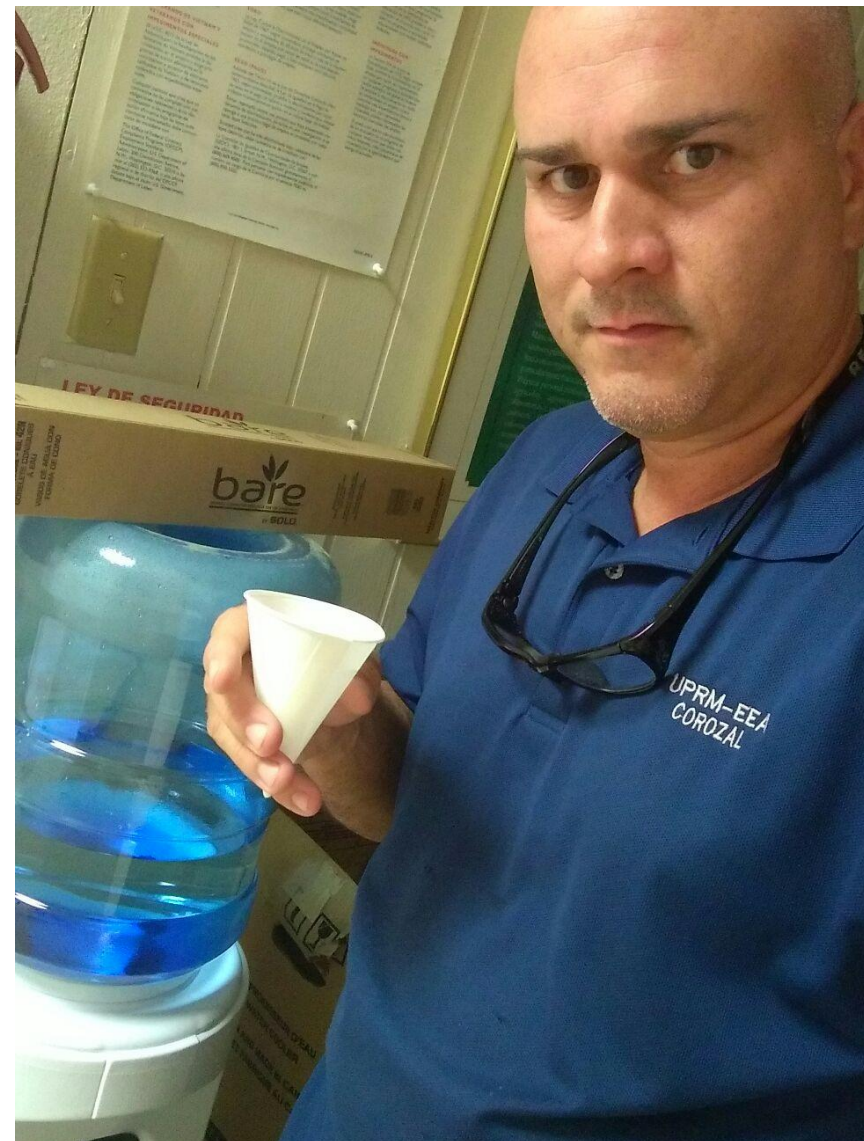

# IR-4 Members Donation

<b>Total Amount</b>	<b>\$2,390</b>
Water Dispensers (12)	1,435.00
5 Gallon Water Jugs (24)	240.00
Construction Materials for Rebuilding Ricardo's House	715.00

# Water Dispensers

Thanks for your good thoughts for  
recovery. Gracias!!
